Product description

This playground equipment comes with two slides in different sizes.

The lower (870 mm) tower can be accessed safely by a ladder. The high (1470 mm) tower can be accessed by rung net, and the exhilarating descent at high speed is via slide. Beneath the tower there is a seat for having a rest amid play.

The frame top is made of laminate and pine. Made of laminate with a beautiful texture, the walls have small window panes for children to peek through.
